Ganesh Behera

Full Stack Web Developer

PROFESSIONAL SUMMARY

Experienced full-stack web developer proficient in MERN stack (MongoDB, Express.js, React.js, Node.js) with a passion for creating efficient and scalable web applications. Detail-oriented and proficient in RESTful API design and database optimization. Excellent communicator and collaborator, able to adapt to evolving development workflows. Proactive problem solver dedicated to delivering high-quality software solutions.

PROJECTS

1. Clone of BigBasket | 🌐 | 📱

React.js | Redux | HTML5 | CSS3 | Responsive Web Design | JavaScript

- Developed a fully functional clone of BigBasket, an online grocery shopping platform.
- Built the homepage showcasing featured products and categories using React.js and HTML5.
- Implemented product listing pages with search and filtering options, and product details page with descriptions, pricing, and add-to-cart functionality.
- Contributed to the shopping cart functionality to add and remove items, and the checkout page with billing and shipping information.
- Ensured a responsive web design for seamless user experience across different devices.

2. Clone of Zara | 🌐 | 📱

HTML5 | JavaScript | CSS3

- Developed a replica of Zara's e-commerce website, showcasing their featured products and categories.
- Implemented the product listing pages with search and filtering options using HTML5, CSS3, and JavaScript.
- Contributed to the development of the product details page with descriptions, pricing, and add-to-cart functionality.
- Collaborated with the team to ensure a seamless shopping experience through the shopping cart functionality, checkout page, and order confirmation page.
- Worked on enhancing the performance and user interface of the product page.
